THE COUNCIL.

The Council, the governing body of the College, consists of twenty-four Members, three* of whom go out in rotation annually in July, but are eligible for re-election by the Fellows of the College. All proceedings of the Court of Examiners, the Board of Examiners in Anatomy and Physiology, the Midwifery and Dental Boards, and the several Committees are reported to the Council for approval and confirmation. The Meetings of the Council are generally held in each month of the year, except in the month of September, and at such other times as the business of the College may require. During the past Collegiate Year there have been ten Meetings.

* If in any year one of the three retiring Members be President of the College, he does not go out of office until the succeeding year.

THE BOARD OF EXAMINERS IN MIDWIFERY.

The Board consists of four Members annually elected, viz. :—The Chairman, one of the Vice-Presidents of the College, and three other Members, who are required to be elected either from the Fellows or Members of the College, or from the Fellows or Licentiates of the Royal College of Physicians of London. The Board conducts the Examination of Candidates for the Licence in Midwifery. *There have not been any appointments made during the last seven years, and the Examinations are suspended until further notice.*

BOARD OF EXAMINERS IN DENTAL SURGERY.

The Board consists of six Members elected by the Council for five years, viz. :—three Members of the Court of Examiners of the College, and three other persons skilled in Dental Surgery. The Board conducts the Examination of Candidates for the Diploma in Dental Surgery of the College. During the year there have been three Meetings of the Board, and thirty-two Candidates have been examined, twenty-eight of whom obtained the Diploma.

THE SECRETARY'S REPORT.

THE Secretary's Report prepared in pursuance of the resolution of the Council of the 9th of December, 1880.

At the Quarterly Meeting of the Council on the 14th of July, 1881, the four Examiners in Medicine and two in Midwifery were elected for the purpose of conducting the Examinations in those subjects from and after the 1st of January, 1882, the present two Examiners in Medicine being appointed to conduct the Examinations in Medicine to the end of the year 1881.

At this Meeting a communication from Mr. John White, Secretary to the Royal Commission on the Medical Acts, and the several questions accompanying the same, to which answers were requested by the Commission, were submitted to the consideration of a Committee to report thereon to the Council.

At the Ordinary Meeting of the Council on the 11th of August, 1881, mere matters of routine engaged the attention of the Council.

At the Quarterly Meeting of the Council on the 20th of October, 1881, a vote of condolence was unanimously passed to the family of the late Mr. James Luke, F.R.S., a past President and past Member of the Council and of the Court of Examiners, in reference to the loss sustained by them by his death.

At this Meeting a Letter was read from the Honorary Secretary General of the International Medical Congress, thanking the Council for the *Conversazione* given to the Congress on the 8th of August.

At the Ordinary Meeting of the Council on the 10th of November, 1881, the following Report of the Medical Acts' Commission Committee, as amended, was approved and adopted, and directed to be forwarded to Mr. White, Secretary to the Royal Commission, in reply to his letter of the 8th of July, 1881, viz. :—

REPORT, dated the 7th of November, 1881, of the Medical Acts' Commission Committee, as amended and approved by the Council on the 10th of November, 1881.

Members of the Committee.

SIR JAMES PAGET, BART., *Chairman.*
 DR. HUMPHRY. MR. SAVORY. MR. LUND.
 MR. ERICHSEN. MR. HOLMES. MR. LISTER.
 THE PRESIDENT.
 THE VICE-PRESIDENTS.

The Committee, appointed by the Council on the 14th of July last, to take into consideration and report to the Council on the letter from Mr. John White, Secretary to the Royal Commission on the Medical Acts, requesting, on behalf of the Commission, answers from the College to the questions set forth in his letter, relating to the subjects of inquiry under the consideration of the Commission, has held five meetings, and, having considered the several questions proposed by the Commission, has adopted the following Report to the Council, viz. :—

The Committee recommends to the Council that the following answers should be returned to the several questions contained in the letter from Mr. White, such answers being, for the convenience of their consideration by the Council, placed opposite to the questions in the letter, viz. :—

MEDICAL ACTS' COMMISSION.

2 Victoria Street, S.W.,
 8th July, 1881.

SIR,

Apart from other evidence which may be taken by the above Royal Commission from the several Licensing Bodies, I am directed to invite each of those Bodies to assist the Commissioners by communicating to them, in the form of written replies to certain enquiries, its views upon some of the main subjects to be considered by the Commission. I shall, therefore, esteem it a favour, if you will procure for me from the Royal College of Surgeons of England an expression of opinion upon the questions written below :—

ANSWERS.

1. THE LICENSING SYSTEM.

In the opinion of the College, is any alteration of the present Licensing System required?

If alteration of that System be deemed requisite, what changes therein would, in the opinion of your College, most likely to prove beneficial to the public and the profession?

1. THE LICENSING SYSTEM.

The Council of the College of Surgeons has long been of opinion that no person should be registered as a legally qualified practitioner, unless, after a duly recognized general and professional education, he shall have passed complete examinations in Medicine, Surgery, and Midwifery.

In conformity with this view, the Council, in 1868, took the step of instituting an Examination in Medicine, the passing of which, or the

possession of some registrable Medical Qualification, was made a necessary condition of obtaining its Surgical Diplomas, and has recently determined to increase the range of the Examination in Medicine and to add an Examination in Midwifery.

The Council has for many years been engaged, from time to time, in the arrangement of a plan by which complete examinations in Medicine, Surgery, and Midwifery might be held, under the combined authority of all the Licensing Bodies in England.

Lastly, the Council, quite recently, in view of the difficulties of carrying any such Conjoint Examination Scheme into effect, made proposals to the Royal College of Physicians, for the institution of a Combined Examination, to be conducted by the two Royal Colleges.

Doubts as to the desirability of establishing any compulsory Conjoint Scheme of Medical Education and Examination in England—unless a corresponding Scheme were adopted in Scotland and in Ireland—and the expectation that, sooner or later, the conditions under which such combined examinations should be instituted in each of the three divisions of the Kingdom would be determined by legislation, have been the chief causes preventing the proposed action of the English Medical authorities. But the Council of the College of Surgeons, in the belief that some amendment of the Medical Act of 1858 will follow the report of the Royal Commission on the Medical Acts, desires to place before that Commission the following resolutions, in reply to the questions submitted to it by the Royal Commissioners:—

That no person should be registered as a legally qualified practitioner unless, after a duly recognized general and professional education, he shall have passed complete examinations in Medicine, Surgery, and Midwifery.

That such complete Examinations would “be most likely to prove beneficial to the public and the profession” if, in each division of the United Kingdom, there were a combination of Licensing Bodies, under the sanction of the General Medical Council, to conduct the Examinations.

That persons who have passed such complete Examinations should be entitled, under conditions agreed to by the Corporations and sanctioned by the General Medical Council, to the Diplomas of the combining Corporations; and that a Medical and a Surgical Diploma should be necessary for registration.

That it should be enacted by legislation that no person be admitted to a qualifying examination under the age of twenty-two years, in order that another year may be

added to the time assigned to professional education.

That no University should be permitted to grant a Licence in Medicine or in Surgery independently of its Degrees.

2. THE GENERAL MEDICAL COUNCIL.

Do the present constitution, powers, and functions of the General Medical Council appear to your College satisfactory?

If these, or any of them, appear to need modification, what changes therein would, in the opinion of your College, be most likely to prove advantageous, either by enlarging the usefulness of the Council, or increasing the confidence in it of the profession or the public?

I am further to request that you will be good enough to procure for the Commission the following returns, many of which are, as the Commission is aware, to be found in published documents, but which the Commissioners venture to ask you to supply for them in a form more concise and convenient for reference:—

1. *The number of candidates who have, in each of the last five years, obtained from your College each of the following registrable titles:—Fellow, Member, Licentiate in Midwifery.*

2. *The amount of emolument derived by your College in each of those years from the grant of each of those titles.*

3. *The other sources of income possessed by your College and the annual amount of income, approximately, from such other sources.*

I have the honour to be, Sir,

Your obedient Servant,

JOHN WHITE,

Secretary.

2. THE GENERAL MEDICAL COUNCIL.

The Council of the College is not agreed in opinion in regard to the question of any alteration in the constitution of the General Medical Council; but, in reference to the powers and functions of that Council, the Council of the College is of opinion that these should not be increased or extended.

1, 2, & 3. The replies to these three questions are given in the accompanying Tables and in the following explanations. (See Tables I, II, III, and IV. herewith.)

The following explanations of the accompanying Tables are necessary:—

A. *As to the Receipts, or Gross Emolument:—*

1. The receipts from the *Preliminary Examinations*, amounting to an average sum of £1085 per annum, and leaving, after deducting the Examiners' fees, viz. £400, and incidental office expenses, about £50, a surplus of £635, will now cease, as the College will no longer hold these Preliminary Examinations.

2. The annual income from *Securities* and from *House Property*, amounting now to £2520, is derived entirely from savings out of the Examination fees, which have been invested from time to time: for the College has never received any Legacies or Endowments applicable to its general expenses.

All its *Trust Funds* have to be, and are, strictly applied to special purposes.

B. *As to the Expenditure:—*

1. It is important to be observed, that the actual Cost of the Professional Examinations for the Membership and Fellowship is by no means expressed in the fees to Examiners, the incidental expenses of the Examinations, and the payments to the Government for the Diploma Stamps; for a very large proportion of the annual Office-expenses are really chargeable to the Examinations. Almost

all the Office work, and nearly the whole cost of Printing, Stationery, Advertisements, and Postage, are connected directly with those Examinations. The official work and payments needed for the business of the Council, the Museum, and the Library are comparatively trifling.

2. A very considerable share of annual *Museum* expenses must also be added to the cost of the Examinations proper; for a great number of the specimens, and most of the *Museum Attendants*, are employed in those Examinations.
 3. Further, a certain large proportion of the *annual payments* made by the College for Fuel and Light, for Rates, Taxes, and Insurance, and for Repairs and Improvements, must also be regarded as an outlay for the Examinations, being necessary for securing adequate and indispensable accommodation for carrying them on.
- C. *As to the Surplus, or Nett Emolument:—*
1. The Surplus or Nett Emolument of the College Examinations, after deducting all the expenses, whether direct or indirect, of those Examinations from the fees paid by the Candidates, has always been chiefly applied to the maintenance and extension of the Hunterian Collection and the College Library,—any residue, when existing, being from time to time invested for the same ultimate objects.
 2. Since the beginning of the Century, the College has expended about £50,000 in the purchase of House Property and Government Securities. Its Library has cost during the same period not less than £40,000. Finally, whilst the College has received, at different dates, Parliamentary Grants, amounting to £42,500, for the enlargement of the buildings devoted to the reception of the Hunterian Collection, it has contributed out of its own resources £42,000 for the same purpose, and about £200,000 for the preservation and improvement of the magnificent Anatomical Collection of which it has undertaken the guardianship for the use of the scientific world, and therefore for the benefit of the public.

7th November, 1881.

At the Ordinary Meeting of the Council on the 8th of December, 1881, a copy of the Medal struck in commemoration of the International Medical Congress was presented by the Honorary Secretary General of the Congress, and accepted by the Council.

At the Quarterly Meeting of the Council on the 12th of January, 1882, a vote of condolence with Mrs. South and her family in the loss sustained by them in the death of Mr. John Flint South, late President and Member of the Council and of the Court of Examiners, was unanimously adopted.

At this Meeting the following Report of the Committee on the necessary arrangements for the institution of additional Examinations for the Diplomas of Member and Fellow of the College was approved and adopted, and directed to be entered on the Minutes, viz. :—

Fourth Report, dated the 4th of January, 1882, of the Committee on the necessary arrangements for the institution of additional Examinations for the Diplomas of Member and Fellow of the College.

Members of the Committee.

MR. BIRKETT, *Chairman.*

MR. SAVORY. MR. HOLDEN. MR. HOLMES. MR. ERICHSEN.

THE PRESIDENT.

THE VICE-PRESIDENTS.

The Committee, having submitted three Reports to the Council (see Minutes of Council on the 13th of May, 1880, of the 13th of January, 1881, and of the 13th of April, 1881), have adopted the following as their Fourth Report to the Council, viz. :—

The Committee report that they have taken into consideration the following Resolution of the Council, dated the 9th of December, 1880, viz. :—

“That it be referred to the Committee on the arrangements for further Examinations for the Diplomas of Member and Fellow of the College to take into consideration the curricula of professional education for those Diplomas, especially in reference to the inequalities existing in them as compared with the curricula of other Institutions, and to report thereon to the Council :”

and that, having examined the curricula of professional education of the other Surgical Institutions in the United Kingdom, they do not recommend to the Council that any alteration should be made in the curricula of professional education for the Diplomas of Member and Fellow as laid down in the existing Regulations of the College.

The Committee further report that, in pursuance of the Resolution of the Council of the 9th of June last, they have taken into consideration the following Resolution of the General Medical Council of the 30th of April, 1881, contained in Mr. Miller's letter of the 11th of May last, viz. :

"That it be recommended to the several Licensing Authorities under the Medical Act, to consider whether they can separately or conjointly take steps to promote the establishment of a Preliminary Scientific Examination and to require of all Candidates for their respective Licenses that, after passing the Preliminary Examination in General Education and either before commencing the purely Medical curriculum, or, at the latest, before the end of the first year thereof, they shall pass such a Preliminary Scientific Examination as is proposed ;"

and they recommend to the Council that the following reply should be sent to such Resolution, viz. :

That in the opinion of the Council it is desirable that Candidates for the Diplomas of Member and Fellow of the College should be required to pass a Preliminary Scientific Examination, in addition to the Preliminary Examination in General Education, provided that such Examination be passed by them before the commencement of the purely Medical curriculum, so as to avoid any curtailment of the present too limited period of four years now required for professional study; and that it is not in the province of the College to take any steps either separately or conjointly in the establishment of the proposed Preliminary Scientific Examination.

4th January, 1882.

JOHN BIRKETT,
Chairman.

At this Meeting Mr. Frederic Greville Hallett was appointed Assistant Secretary of the College, and a valuable collection of Instruments, belonging to the late Sir Benjamin Brodie, Bart., illustrating the steps in the operation for the removal of Calculi from the Bladder without the use of the knife, was presented to the Council by Mr. Charles Hawkins and accepted with thanks.

At the Ordinary Meeting of the Council on the 9th of March, 1882, the following proposal was referred to the consideration of a Committee to report thereon to the Council, viz. :—

"That on and after the 1st of October, 1882, no Candidate be admitted to the final or pass Examination for the Diploma of Member until after the expiration of two years from the date of his passing the Primary or Anatomical and Physiological Examination unless he shall, before presenting himself for such Primary Examination, have completed the curriculum of professional study for the Diploma, or shall possess a degree or Diploma in Medicine or Surgery, or shall show reasons for exemption from this rule which shall be satisfactory to the Court of Examiners."

At this Meeting the following Standing Rule relating to Candidates rejected on the Primary Examination for the Diploma of Member was adopted by the Council, viz. :—

“A Candidate referred for three months on the Primary Examination for the Diploma of Member is required, before being admitted to re-examination, to produce a certificate that he has pursued, to the satisfaction of his teachers, his Anatomical and Physiological studies in a recognized Medical School during a period of three months subsequently to the date of his reference; a Candidate referred for six months on such Primary Examination is required, before being admitted to re-examination, to produce a certificate of having performed dissections during three months, and of having pursued, to the satisfaction of his teachers, his Anatomical and Physiological studies in a recognized Medical School during six months subsequently to the date of his reference.”

At the Quarterly Meeting of the Council on the 13th of April, 1882, the following Address of sympathy and congratulation in reference to the cowardly attempt on the life of Her Majesty, was directed to be entered on the Minutes, viz. :—

ROYAL COLLEGE OF SURGEONS OF ENGLAND.

The Humble Address of the PRESIDENT, VICE-PRESIDENTS, and COUNCIL of the

ROYAL COLLEGE OF SURGEONS OF ENGLAND

to

HER MOST GRACIOUS MAJESTY THE QUEEN OF GREAT BRITAIN AND IRELAND.

May it please your Majesty,

We, the President, Vice-Presidents, and Council of the Royal College of Surgeons of England, beg to express our sincere sympathy with your Majesty in the recent atrocious attempt on your Majesty's sacred person, and at the same time to offer to your Majesty our heartfelt congratulations at your Majesty's providential escape from the hands of the assassin.

We humbly trust that your Majesty's most valued life may long be spared, and that your Majesty's beneficent reign may for many years be prolonged to the advantage of your Majesty's loyal and devoted subjects throughout the British Dominions.

In witness hereof we have caused the Common Seal of the College to be hereunto affixed this 9th day of March, 1882.

At this Meeting the following Report of the Committee on the conditions of admission to the Pass Examination for the Diploma of Member of the College was approved, adopted, and directed to be entered on the Minutes, viz. :—

The Committee, appointed on the 9th of March, 1882, to consider and report to the Council on the following proposal, viz.:—

“That on and after the 1st of October, 1882, no Candidate be admitted to the Final or Pass Examination for the Diploma of Member until after the expiration of two years from the date of his passing the Primary or Anatomical and Physiological Examination unless he shall, before presenting himself for such Primary Examination, have completed the curriculum of professional study for the Diploma, or shall possess a degree or Diploma in Medicine or Surgery, or shall show reasons for exemption from this rule which shall be satisfactory to the Court of Examiners;”

have held two Meetings, on the 16th instant and on this date, and have agreed to the following Report, viz.:—

The Committee recommend to the Council the adoption of the principle advocated in the foregoing proposal, that two years should elapse between the date of passing the Primary or Anatomical and Physiological Examination and the Pass or Final Examination for the Diploma of Member, and with a view to giving effect to that principle, further recommend for approval by the Council the following Regulation, viz.:

Candidates commencing their professional education on or after the 1st of October, 1882, will not be admitted to the Pass or Final Examination for the Diploma of Member until after the expiration of two years from the date of their passing the Primary or Anatomical and Physiological Examination for such Diploma, except in the following cases, viz.:—

1. When a Candidate, before presenting himself for the Primary Examination shall possess a recognized Degree or Diploma in Medicine or Surgery, or shall have completed the curriculum of professional education for the Diploma.

2. In the case of a Candidate who, being desirous of obtaining the Fellowship, shall fail to present himself for the Primary Examination for the Membership at the end of his second year of professional study, but who shall pass at the end of his third Winter Session the Primary Examination for the Fellowship, it being required in such case that not less than one year of attendance on the Surgical Practice of a recognized Hospital shall intervene between the date of his passing the Primary Examination for the Fellowship and the date of his presenting himself for the Pass or Final Examination for the Diploma of Member.

3. In the case of a Candidate who, having commenced his professional studies by attendance on the practice of a recognized Provincial or Colonial Hospital, and having completed a year of such attendance, shall fail to pass the Primary Exami-

nation at the end of his second Winter Session of attendance at a recognized Medical School, provided that in his case not less than one year shall elapse between the date of his passing the Primary Examination and the date of his presenting himself for the Pass or Final Examination for the Diploma of Member.

4. When a Candidate owing to illness, duly certified by one or more of the Teachers of his Medical School, shall be prevented from presenting himself for the Primary Examination on the completion of his second year of professional study.

5. And in the case of a Candidate who, from some unforeseen circumstances, shall fail to present himself for the Primary Examination on the completion of his second year of professional study, it being left to the Court of Examiners to determine whether in such case the Candidate shall or shall not be required to comply with the regulation.

24th March, 1882.

JOHN BIRKETT,
Chairman.

The Council agreed to the request of the Secretary of State for the Home Department that the President should nominate annually a Scientific Analyst to undertake, when ordered in the interests of Justice, Post-Mortem Examinations.

At the Ordinary Meeting of the Council on the 11th of May, 1882, the following Report of the Joint Committee on the proposed institution of an Examination in Elementary Anatomy and Physiology after the expiration of the first year of study was approved, adopted, and directed to be entered on the Minutes, viz. :—

REPORT, dated the 24th of April, 1882, from the Nomination Committee, in conference with the Committee on the arrangements for additional Examinations for the Diploma of Member and of Fellow of the College, on the establishment of an Examination in Elementary Anatomy and Physiology after the expiration of the first year of study.

THE PRESIDENT.

THE VICE-PRESIDENTS.

The Nomination Committee, in conference with the Committee on additional Examinations, have met on this date to consider the following Resolutions of the Council, dated the 13th of May, 1880, viz. :—

“1. That, under the powers given by Section XIV. of the Bye-Laws, the Council do proceed, as soon as is practicable, to institute an Examination in Elementary Anatomy and Physiology, and in such other subjects as the Council

shall from time to time determine, to be passed by Candidates for the Membership of the College at or after the expiration of their first year of study ;

"2. That it be referred to the 'Committee on Examinations in Anatomy and Physiology' to prepare, and submit to the Council for approval, the necessary regulations for defining and conducting such Examination ;

"3. That it be referred to the Committee on Bye-Laws to prepare the revised or new Formulæ which will be required for the rearrangement of the payment of Fees, by the institution of such Examination ;"

and having considered the same, have agreed to the following Report to the Council, viz. :—

The Joint Committee have to report to the Council that, however desirable, it is not practicable to institute an Examination in Elementary Anatomy and Physiology at the College without an additional charge to the Students, but that, in the opinion of the Committee, it is desirable that, in lieu of the proposed Examination at the College, an Examination in Elementary Anatomy and Physiology should be instituted at the several recognized Schools of Medicine after the end of the first year of professional study, and that any Student commencing his professional education on or after the 1st of October, 1882, should not be admitted to the Primary Examination for the Diploma of Member of the College without the production of a certificate from his teachers that he has satisfactorily passed the Examination in question at his Medical School.

24th April, 1882.

JOHN BIRKETT,
Chairman.

At this Meeting the Report from the Vice-Presidents on the letter of the 22nd of March, 1882, from the President of the General Medical Council, and the accompanying Report of the Visitors, appointed by that Council, on the Examinations 1881-82 of the Medical and Surgical Corporations of the United Kingdom, was considered and, as amended, approved and adopted, and directed to be entered on the Minutes, viz. :—

REPORT, dated the 5th May, 1883, of the Vice-Presidents on the Letter of the 22nd of March, 1882, from the President of the General Medical Council and the accompanying Report of the Visitors appointed by that Council on the Examinations 1881-2 of the Medical and Surgical Corporations of the United Kingdom, as adopted by the Council on the 11th of May, 1882.

The Vice-Presidents, in the absence of the President from illness, in pursuance of the Resolution of the Council of the 13th April, 1882, have requested the Court of Examiners and the Board of Examiners to consider and transmit to them, for their information and guidance, the views of the Examiners on the 'Report on the Examinations 1881-2 of the Medical and Surgical Corporations of the United Kingdom by the Visitors appointed by the General Medical Council.'

The Court and Board having arrived at certain resolutions expressing their opinions on the questions submitted to them, so far as they relate to the College Examinations for the Diploma of Member, the Vice-Presidents now submit the following as the form of reply of the Council of the College to the General Medical Council :—

The Examinations of the several Corporate Bodies referred to in the Visitor's Report being so different in character, and being conducted on such varying methods, the Council do not consider that it comes within their province to offer any remarks upon the Examinations of any other Corporation than those of the College.

I. PRIMARY EXAMINATION.

With reference to the Primary Examination for the Membership, the following are the subjects treated of in the Visitors' Report, viz.:—

1. The nature and extent of the Physiological Examination.
2. The introduction of Comparative Anatomy into the Primary Examination.
3. The testing of Candidates by the performance of Dissections in the Primary Examination.
4. The effects of limitation of time in the Oral Examination, and the method of Marking, as being, in the view of the Visitors, possibly prejudicial to the success of "a Candidate knowing his work fairly."
5. The desirability of excluding Candidates who have failed in the Written part from proceeding to the Oral part of the Examination.

The Council offer the following observations and remarks under each of the foregoing heads:—

1. *The nature and extent of the Physiological Examination.*

The Council agree with the Visitors in their statement that "Physiology has recently been made the subject of a separate Paper and questions, and has been assigned to separate Examiners; and in consequence the standard of requirement has been materially changed." And, in this respect, the Council are of opinion that the Examination has also been "materially" improved. But, as regards the conclusion of the Visitors, that this part of the Examination is too advanced, and excludes a proper attention to the more elementary and fundamental principles of the Science, the Council desire to point out that the Visitors make no mention of the questions put in the written examination, which it will be found treat both of the elementary and fundamental parts of Physiology. Moreover, the questions asked, *vivâ voce*, in this subject are generally of a rudimentary and simple character, and easy to be answered by the well-informed student: and it is only in cases of Candidates who have exhibited more than usual intelligence that the questions assume a more advanced character.

The Council believe that the Physiological Examination is in accordance with the method of teaching Physiology now adopted in the Medical Schools, and is therefore a fair test of the acquirements of Students.

It may here be observed that the Visitors (at p. 16) appear almost to complain of the introduction of "stained microscopic preparations," and of "manipulations of microscopic tissues into the Physiological Examinations;" whereas, in their 9th conclusion (p. 56), they assert that "a practical knowledge of the histology of tissues and chief organs" should be required of all Candidates.

2. *The introduction of Comparative Anatomy into the Primary Examination.*

The Council admit the accuracy of the statement of the Visitors (p. 20) as to the exclusion of Comparative Anatomy, under the heads of "Homology" and

"Morphology," as a necessary part of the Primary Examination; and have adopted this course, chiefly on the ground that a Student who has had only eighteen months' instruction in Anatomy and Physiology could not reasonably be expected to have acquired such an adequate knowledge of Comparative Anatomy as to justify the introduction of that subject into the Examination.

The object of the Council, in view of the fact that the Examinations are instituted expressly for the purpose of testing the knowledge of persons desirous of practising Surgery, has always been, as correctly stated by the Visitors (p. 20), "to secure that the attention of Students, so far as their Examination was concerned, should be concentrated on Human Anatomy and Physiology, with the view of securing greater thoroughness of preparation;" whilst the Council feel that the proposed extension of the questions to an ill-defined and defective modicum of Comparative Anatomy would frustrate this intention.

Neither in regard to this question of adding Comparative Anatomy to the purely Anatomical part of the Examination, nor to the subject of Physiology as a whole, do the Council see their way to adopt any useful form of Schedule, feeling more disposed to trust to the discretion of Examiners than to rely upon a restricted basis of Examination manifestly open to many objections.

3. The testing of Candidates by the performance of Dissections in the Primary Examination.

As regards the requirement of actual dissections by Candidates in the Primary Examination, the Council have to observe that this question has been for many years past repeatedly under their consideration, both before and since the receipt of any Reports made to, or any Recommendations emanating from, the General Medical Council.

The Council have arrived at the conclusion that any advantage which might be gained by insisting on dissections, would not be commensurate with the practical difficulty as to space, time, and supply of subjects which would attend their introduction as a distinct element of the Examination, if made *compulsory*, in the case of every Candidate. This objection becomes practically insuperable in the case of the College Examinations during the months of April and May, when more than 600 Candidates are examined.

It must not be forgotten that every Candidate is required to produce positive evidence that he has actually dissected, indeed, diligently and to the satisfaction of his Teacher; and that Candidates are examined on recently dissected parts.

4. The effects of limitation of time in the Oral Examination, and the method of Marking, as being, in the view of the Visitors, possibly prejudicial to the success of "a Candidate knowing his work fairly."

The serious strictures and unfavourable "*general impression*" of the Visitors on this subject (p. 27) appear to the Council hardly justifiable, and may possibly be explained by their necessarily brief acquaintance with the Examinations of the College and the mode in which they are conducted.

The Visitors observe (p. 27) that at the Primary Examination "there is great risk that a Candidate knowing his work fairly may be rejected;" and the causes they "assign for this are two-fold—the strict limitation of time for each department of the *vicé versa*, and the method of marking."

The Council must point out, first, that in dealing with large numbers of Candidates, coming from all parts, a strict limitation of time becomes an absolute necessity for

the regular and systematic conduct of the Examinations : secondly, that in the experience of the College Examiners, both past and present, it has rarely happened that any doubt has arisen as to the *sufficiency* of a Candidate's knowledge after an examination of a quarter of an hour's duration ; and that, in any such doubtful case, it has been and is the practice in the Primary Examination to give the Candidate an opportunity of a further examination in that part in which any doubt concerning him may have arisen.

The Visitors further remark, as one cause of possible risk of rejection of a Candidate, that, "judging from their experience," the system of marking is "much too arbitrary, and presents too little elasticity to meet the case of the various aptitudes requiring to be discriminated in an Examination." Upon this point the Council are compelled to observe, first, that, although at p. 156 the mode of marking in the College Examinations is fully set out, the Report of the Visitors at pp. 27-28 is somewhat ambiguous, as not distinguishing sufficiently clearly between the methods of marking in the Primary and in the Pass Examinations ; secondly, that the Visitors appear to have lost sight of the object of the Examinations, which are not Competitive but Pass Examinations, and consequently, are not designed to test by a nice *discrimination*, the "*various aptitudes*" of the Candidates ; thirdly, that rejecting numbers are never given in either the Primary or Pass Examination unless a Candidate exhibits such ignorance as to justify his rejection ; and, lastly, that in the Primary Examination, which would appear to be more particularly referred to by the Visitors, it has been the custom for some years to reconsider the case of a Candidate whose total number of marks, either in Anatomy or Physiology, is just below the required standard, and, if the Examiners in that subject concur, to allow him to pass, by raising his total number by one mark.

5. *The desirability of excluding Candidates who have failed in the Written part from admission to the Oral part of the Examination.*

In regard to this question the Council do not agree with the suggestion of the Visitors, but propose to maintain the present system. It is recommended by the Visitors chiefly on the score of "economy of time of the Examiners," p. 57, par. 11 ; but the experience at the College Examinations is that, at least at the Pass Examination, not more than 5 per cent. of the Candidates fail to reach the minimum mark for the written paper.

II. PASS EXAMINATION.

With reference to the Pass Examination for the Membership, the points specially alluded to by the Visitors are as follow :—

1. The requirement of the performance of operations on the dead body by every Candidate.
2. The application of Bandages and Splints to be required of every Candidate.
3. The Examination of Normal and Morbid Urine by every Candidate in the Medical Examination.
4. The limitation of time in the Oral Examination, and the method of Marking.
5. The economy of time to be obtained by excluding Candidates rejected in the Written from appearing at the Oral Examination.

1. *The requirement of the performance of operations on the dead body by every Candidate.*

This subject, like the question of dissections in the Primary Examination, has repeatedly occupied the attention of the Court of Examiners and the Council, long before any representations or recommendations relating to it had proceeded from the General Medical Council.

For reasons similar to those applicable to the introduction of dissections into the Primary Examination, the Council are of opinion that it is not desirable to make the performance of operations on the dead body a *necessary* part of the Pass Examination at the College.

The Council desire to point out that they expressly encourage in the Curriculum the performance of operations on the dead body; that, in the practical part of the Pass Examination, Candidates are required to explain, by the aid of instruments of various kinds, surgical operations, as described on page 65 of the Visitors' Report, which method of testing the knowledge of Candidates is found to be sufficient. The Council are of opinion, as Surgeons, that to attempt to give value to so uncertain a test as the capability of a Candidate to acquit himself satisfactorily in any actual operation on the dead body, under the peculiar conditions incidental to an Examination, might frequently tend to unjust conclusions as regards his knowledge and merits. The Council believe that any attempt to introduce this test on a large scale, and for every Candidate, would end in its becoming either a manifest hardship to students, or a delusion.

Even if desirable, the Council would indicate that the time, space, material, and outlay, both on the part of the College, the Examiners, and the Examinees, necessary for the due and efficient performance of operations on the dead body, by a large number of Candidates, render its adoption practically impossible in existing circumstances.

2. *The application of Bandages and Splints to be required of every Candidate.*

The Curriculum of the College distinctly requires, in the Course of "Practical Surgery," evidence of instruction in the application of Splints and Bandages, besides an evidence of Dressership. In the Pass Examination, moreover, Candidates are liable to be, and many are, called upon to display competency in the use of such apparatus.

3. *The Examination of Normal and Morbid Urine by every Candidate in the Medical Examination.*

In the Medical Examination at the College, in its present extended form, including a Clinical Examination of Patients, every Candidate is liable to be called upon to test healthy and morbid urine.

4. *The limitation of time in the Oral Examination, and the method of Marking.*

5. *The economy of time to be obtained by excluding Candidates rejected in the Written from appearing at the Oral Examination.*

These questions have been dealt with under the same heads relating to the Primary Examination.

In conclusion, the Council think it desirable to point out to the General Medical Council that a slight inaccuracy occurs in the description given by the Visitors of

the constitution of the College, so far as concerns the appointment of the Members of the Court of Examiners. In the last column, at the top of page 55, for the words "Final, not limited," the words "Final, limited to 5 years, but re-eligible," should be substituted.

11th May, 1882.

At the Ordinary Meeting of the Council on the 8th of June, 1882, approved, adopted, and directed to be entered on the Minutes, the following Report from the Vice-Presidents on the Sale of Poisons' Act :—

Report, dated the 1st of June, 1882, of the Vice-Presidents, on the letter of the 11th of March, 1882, from the Secretary of State for the Home Department, inquiring whether the Council have any suggestion to make for the Amendment of the Law relating to the Sale of Poisons.

The Vice-Presidents, in the absence of the President from illness, in pursuance of the Resolution of the Council of the 13th of April, 1882, have to report that they have carefully considered the provisions of 31st and 32nd Victoria, Cap. CXXI., the Act regulating the Sale of Poisons and altering and amending the Pharmacy Act of 1852; that they have conferred with the Council of the Pharmaceutical Society thereon, and that they have to submit to the Council the following recommendations as embodying the reply to the letter of the 21st of March last from the Secretary of State for the Home Department, viz. :—

That it is neither necessary nor practicable that any further restrictions should be placed on the sale of Medicines containing Poisons dispensed from ordinary prescriptions by legally qualified Medical Practitioners.

That there should be greater restrictions placed on the sale, *by wholesale*, of certain virulent Poisons such as Strychnine, Aconitine, and all poisonous vegetable Alkaloids and their Salts.

That further restrictions should be provided by Law so as to more efficiently control the sale of poisonous Patent Medicines.

And that the power which the Act confers on the Pharmaceutical Society to make, with the consent of the Privy Council, any additions to or alterations in Schedule (A) is a wholesome provision, and a sufficient guarantee that, from time to time, further changes in that Schedule will be effected, as new Poisons are introduced into common use.

At this Meeting the following Resolution relating to the proposed Examination in Elementary Anatomy and Physiology was passed, viz. :—

"That the attention of the Authorities of the several recognized

Medical Schools in England be directed to the resolution adopted by the Council at the last Meeting, viz. :—that ‘it is desirable that an Examination in Elementary Anatomy and Physiology should be instituted at the several recognized Schools of Medicine after the end of the first year of Professional Study,’ &c.; that the Teachers of Anatomy and Physiology in those Schools be invited to confer with the Joint Committee of the College appointed to consider the question, on the mode of carrying out the proposed Examination, and that the Joint Committee do report thereon to the Council.”

THE MUSEUM.

THE Hunterian Collection, which forms the basis, and still a large proportion, of the contents of the present Museum of the Royal College of Surgeons of England, was originally arranged in a building which its Founder, John Hunter, erected for it in 1784, behind his house in Leicester Square.

John Hunter died October 16th, 1793, aged 65. By his will he directed the Museum to be offered in the first instance to the British Government, on such terms as might be considered reasonable, and in case of refusal to be sold in one lot, either to some foreign state, or as his executors might think proper.

In the year 1799 Parliament voted the sum of £15,000 for the Museum, and an offer of it being made to the Corporation of Surgeons, it was accepted on the terms proposed by Government*.

In 1806 the sum of £15,000 was voted by Parliament in aid of the erection of an edifice for the display and arrangement of the Hunterian Collection; a second grant of £12,500 was subsequently voted, and upwards of £21,000 having been supplied from the funds of the College, the building was completed in Lincoln's-Inn-Fields, in which the Museum was opened for the inspection of visitors in the year 1813.

* The following are the Terms and Conditions on which the Hunterian Collection, purchased by Parliament, was delivered to the late Corporation of Surgeons; which Corporation having become dissolved, the Members thereof were re-incorporated by Charter, dated the 22nd day of March, 1800, under the Title of The Royal College of Surgeons in London:—

1st. The Collection shall be open Four Hours in the Forenoon of two days every week for Inspection and Consultation of the Fellows of the College of Physicians, the Members of the Company of Surgeons and Persons properly introduced by them; a Catalogue of the Preparations, and a proper Person to explain it, being at those times always in the Room.

2nd. That one Course of Lectures, not less than twenty-four in number, on Comparative Anatomy and other subjects, illustrated by the Preparations, shall be given every year by some Member of the Company.

3rd. That the Preparations shall be kept in a state of Preservation, and the Collection in as perfect a state as possible, at the Expense of the Corporation of Surgeons, subject to the annual Inspection and Superintendence of the Trustees.

4th. That there shall be a Board of Trustees, to consist of sixteen (increased to seventeen by the Lords of the Treasury in 1856) Members, by virtue of their Public Offices, and of fourteen others, to be appointed, in the first instance, by the Lords of the Treasury, and afterwards to be elected, as Vacancies may happen, by a Majority of the remaining Trustees.

5th. That the Museum shall always be open for the Inspection of all or any of the said Trustees, who are to take care that the Corporation of Surgeons perform their Engagements respecting the said Collection. That a day be appointed for the annual Inspection of the Museum, by the Trustees acting collectively as a Board; and that they are also to have quarterly Meetings, for the transacting of any Business relative to the Museum, and for the filling up of such Vacancies as may happen in the number of the Trustees; and that the Corporation of Surgeons shall engage some Person to officiate as Secretary to the Board upon such occasions, and to issue previous Notice to the Members, in which he is to state particularly whether any Vacancies are to be filled up by new Elections.

In consequence of the large number of additions, this building became too small for the adequate display and arrangement of its contents; and more space being at the same time required for the rapidly increasing Library, the greater portion of the present building was erected, wholly at the expense of the College, in 1835, at a cost of about £40,000, and the Hunterian and Collegiate Collections were re-arranged in what are now termed the Western and Middle Museums, which were opened for the inspection of visitors in 1836.

Further enlargement of the building having become necessary by the continued increase of the Collection, the College, in 1847, purchased the extensive premises of Mr. Alderman Copeland, in Portugal Street, for the sum of £16,000, and in 1852 proceeded to the erection of the Eastern Museum, at the expense of £25,000, Parliament granting £15,000 in aid thereof. The re-arrangement of the specimens was completed, and the additional portion of the building opened to visitors in 1855.

The Hunterian Collection was estimated to consist of 13,682 specimens, distributed under the following heads:—

Physiological Department, or Normal Structures.

Physiological preparations in spirit	3745
Osteological preparations	965
Dry do.	617
Zoological do.	1968
Fossils :—	
Vertebrate	1215
Invertebrate	2202
Plants	292

Pathological Department, or Abnormal Structures.

Preparations in spirit	1084
Dry preparations (including bones)	625
Calculi and concretions	536
Monsters and Malformations	218
<i>Microscopic preparations</i>	215

Of the additions by which the size and value of the Collection have been so materially increased since it came into the possession of the College, very many have been presented by Fellows and Members of the College, and other persons interested in scientific pursuits. Among the largest contributions from this source have been the Collection, consisting of 847 specimens, presented in 1811 by Sir William Blizard, and a valuable series of Pathological specimens presented in 1851 by Sir Stephen L. Hammick. At the same time the Council of the College have availed themselves of various opportunities as they have occurred to purchase specimens of interest, especially at the dispersion of private anatomical and pathological museums, as that of Sir A. Lever in 1806, of Mr. Joshua Brookes in 1828, of Mr. Heavside in 1829, Mr. Langstaff in 1835, Mr. South in the same year, Mr. Howship and Mr. Taunton in 1841, Mr. Liston in 1842, Mr. Walker in 1843, and, deserving of especial mention on account of the great number and value of the specimens acquired, those of Sir Astley Cooper in 1843 and Dr. Barnard Davis in 1880.

The Histological Collection, of which the 215 Hunterian specimens (prepared by Hewson) constitute the nucleus, was chiefly formed by the late Professor Quekett, with considerable additions by purchase from Dr. Tweedy J. Todd, Mr. Nasmyth,

and Professor Lenhossek. It now contains upwards of 12,000 specimens, all arranged and catalogued so as to be readily available for reference.

The superintendence of the Museum is confided by the Council of the College to a Committee of its Members, which Committee has held four meetings during the last year.

A summary of the progress made in the preservation, arrangement and augmentation of the Collection will be found in the following Report.

ANNUAL REPORT OF THE CONSERVATOR TO THE MUSEUM COMMITTEE.

(Presented July 4th, 1882.)

PATHOLOGICAL COLLECTION.

THE change in the staff mentioned in the last Report as about to take place resulted in the appointment, at the meeting of the Council in July 1881, of Mr. Frederic S. Eve, a Fellow of the College, to the offices of "Pathological Curator" and "Erasmus Wilson Lecturer on Pathology." Mr. Eve's qualifications for the post had been fully tested by the highly satisfactory manner in which he had for several years performed the duties of Curator to the Museum of St. Bartholomew's Hospital, during which time he had prepared, and conducted through the press, a new catalogue of the pathological collection, and had also generally improved the order, as well as adding largely to the contents, of the Museum.

The new Catalogue, upon which Sir James Paget, Dr. Goodhart, and Mr. Doran have been so long engaged, has made great progress during the year. The whole of the MS., including revised descriptions of nearly 5000 specimens, of which 1500 have been added since the publication of the last edition, is completed, and at the meeting of the Council in April last it was ordered to be printed. The first volume, containing a description of the preparations illustrating General Pathology, is already in type, and it will be ready for distribution in a few weeks.

An unusually large number of new preparations has been added to the series, as will be seen by the annexed list.

OSTEOLOGICAL COLLECTION.

The second part of the new Catalogue, containing the bones and teeth of the animals of the class Mammalia, other than Man, is nearly complete and was ordered to be printed at the meeting of the Council in January

The portion which contains the orders *Primates* and *Carnivora* is now in the press ; and it may be expected that the volume will be issued before the next annual Report. The great number of references required to be examined and verified, in order to ensure accuracy of nomenclature (one of the main objects aimed at in this Catalogue), makes the progress of the work somewhat slow.

Many additions have, as usual, been made to this series. Last year it was mentioned that a skull of the great Elephant-Seal of the South Seas—the largest and, in some respects, the most interesting member of the group of Seals—was presented to the Museum by Mr. H. Mansel. It belonged to an animal killed by that gentleman, about three years ago, in the Falkland Islands, where, though formerly abundant, it was believed to have been long extinct. In response to enquiries as to the probability of obtaining the remainder of the skeleton of the animal (a great desideratum to the Collection), Captain R. C. Packe, of Stanley, was good enough to visit the place where it was killed ; and though the body had been lying more than a year on the beach, he succeeded in collecting nearly all the bones, and has presented them to the Museum. Some few, which are still missing from the skeleton as articulated, have since been found, and are now on their way home. The skeleton measures upwards of sixteen feet in length, from the nose to the end of the hinder toes, which is probably a fair indication of the size to which the animal attains, though far short of the common estimate given by the early voyagers.

Fine skeletons of the male and female of an allied species, the Sea-Bear (*Otaria ursina*) of the North Pacific, have also been added to the collection. This is the animal which yields the greater number of the skins, commonly called " Seal-skins," so largely used as articles of ladies' dress. The island of St. Paul, where they abound, and where, under the excellent regulations established by the American government, their numbers do not diminish, notwithstanding the immense exportation of skins, is leased by the Alaska Commercial Company of San Francisco, by whom these skeletons have (at the instance of Mr. F. Coleman, Secretary to the Falkland Islands Company) been presented to the Museum.

The collection of human skeletons and skulls continues to receive large additions, notably during the present year one of a series of upwards of a hundred skulls from Egypt, being mostly those of mummies, presented by Captain R. C. Burton. Although it is, unfortunately, not possible to ascertain the precise date of any of these, many valuable indications may be gained from them, relating to the general physical characters of the people to whom they belonged.

The appeal made a few years ago by Sir Joseph Fayrer to the Medical Officers of the Army serving in India, to collect skeletons and crania of various oriental races, has been liberally responded to. Among the contributors this year are :—Surgeon-Major S. Coull Mackenzie, M.D., of the Campbell Hospital, Calcutta (who has forwarded altogether eight perfect skeletons to the Museum) ; Deputy Surgeon-General John Shortt, M.D.,

Madras; Surgeon-Major G. Bidie, M.B., Superintendent of the Government Central Museum, Madras; Mr. Ondaatje, Colonial Surgeon, Ceylon; and Mr. K. S. Nariman, Civil Surgeon, Dohad.

COLLECTION OF SURGICAL INSTRUMENTS.

This department has been increased by the donation from Mr. Charles Hawkins of a series of about twenty-four instruments, which formerly belonged to the late Sir Benjamin Brodie, exhibiting progressive modifications in the methods of removing calculi from the bladder without the use of the knife. Dr. Jamieson, of Shanghai, has also presented some curious trusses of native manufacture.

MISCELLANEOUS.

Dr. Garson has this summer commenced a series of demonstrations on Comparative Osteology in the Museum, on Tuesday afternoons, illustrated by the specimens, which are well attended.

The number of visitors to the Museum is constantly increasing. In the year 1881 as many as 11,284 signed the Hall-porter's book. In 1861 the number was 3,669.

On the occasion of the meeting of the International Medical Congress in London last August, special facilities of access to the Museum were given to Members, and a *Conversazione* was held in the College, at which about 1500 (not included in the number given above) were present, and at which the Museum was for the first time lighted with electric lamps, on the Brush system, temporarily arranged for the purpose.

In order to give the foreign visitors to the Congress an idea of the history and scope of the Museum, and its relation to other Institutions, and at the same time to place on record, in a concise and accessible form, some facts connected with its origin and progress, I took the opportunity of addressing the section of Anatomy on this subject; and the account thus given of the collection is published in the first volume of the Transactions of the Congress.

THE LIBRARY.

THE formation of a regular Library may be said to have commenced in the year 1801, at which time and in succeeding years presentations and bequests of books, often in considerable numbers, were made to the College—the principal donors being Dr. Baillie, Sir Everard Home, Sir Charles Blicke, the widow of Mr. Sharp, Sir Ludford Harvey, Dr. Fleming, Mr. Cotton, and Mr. Long. The Court of Assistants also directed from time to time the expenditure of small sums of money for the purchase of books, and eventually voted a sum of £100 per annum for this purpose. Sir Charles Blicke, in the year 1816, invested the sum of £300, the proceeds of which sum were to be devoted to the same object. Some of the purchases thus made were considerable, as in the cases of the Libraries of Mr. Pitt, Mr. St. Andre, and Sir Anthony Carlisle, and books of importance were added at the recommendation of the Conservator of the Museum and others. In this way a Library of considerable value was gradually accumulated, but it was only accessible to a limited number of persons. In 1827 active steps were taken to render it more generally useful, and with this object catalogues and extensive lists of desirable acquisitions were ordered to be prepared. Large sums of money were also expended during this and the ensuing two years, amounting in the aggregate to nearly £6000. A Librarian was appointed, and in 1828 the Library, then containing 10,500 volumes, was thrown open to members of the College, and all other persons engaged in the pursuit of natural science were freely admitted. This large collection, thus opened, offered great facilities to the students. By means of extensive additions, the collection was well nigh complete in works on Medicine and Surgery, both domestic and foreign, whilst it was also very rich in publications relating to the accessory sciences. The transactions of Academies and Societies, and the collection of periodical publications in general, owing to their completeness, and the difficulty with which access can be obtained to this class of literature elsewhere than in large libraries, formed a valuable feature. The maintenance of the Library from that time to the present has involved a very considerable expenditure of the funds of the College. It has been the object of those to whose care it has been confided to ensure the completeness and excellence of the collection, and great facilities of reference have been provided by the preparation of additional catalogues and indexes of subjects. During the past year there have been added to the Library 495 volumes, including 136 new works and 234 tracts, pamphlets, essays, reports, and theses. The entire collection now consists of 38,648 volumes, comprising 15,155 works, and 39,417 tracts, pamphlets, essays, reports, and theses.

The following is a list of the Donations that have been presented to the Library during the year 1881–82, viz. :—
